

CONTENTS.

25. **Dr. H. KAMERLINGH ONNES.** A device for illuminating scales read by reflexion. (With a plate).
(*Versl. Kon. Akad. April 1896*).
26. **E. VAN EVERDINGEN Jr.** Remarks on the method for the observation of the HALL-effect.
E. VAN EVERDINGEN Jr. Measurements concerning the dissymmetry of the HALL-effect in bismuth, and the mean HALL-effect in bismuth and antimony.
(*Versl. Kon. Akad. Mei 1896*).
27. **Dr. H. KAMERLINGH ONNES.** On the measurement of very low temperatures.
(*Versl. Kon. Akad. Mei en Juni 1896*).
28. **Dr. J. VERSCHAFFELT.** Measurements on capillary ascension of liquefied carbonic acid near the critical temperature.
(*Versl. Kon. Akad. Juni 1896*).
29. **Dr. P. ZEEMAN.** Measurements concerning the influence of a magnetization, perpendicular to the plane of incidence on the light reflected from an iron mirror.
(*Versl. Kon. Akad. Juni 1896*).
30. **Dr. P. ZEEMAN.** Measurements concerning the variation of the Absorption of Electrical Vibrations with the Wavelength and with the Concentration of the Electrolyte (with 3 diagrams).
(*Versl. Kon. Akad. September 1896*).

31. **Dr. L. H. SIERTSEMA.** A determination of the magnetic rotatory constant of water.

gases.
 (Versl. Kon. Akad. October 1896).

33. **Dr. P. ZEEMAN.** On the influence of magnetism on the nature of the light emitted by a substance. (Part I).

(Versl. Kon. Akad. October 1896).

Dr. P. ZEEMAN. On the influence of magnetism on the nature of the light emitted by a substance (Part II).

(Versl. Kon. Akad. November 1896).

34. **Dr. L. H. SIERTSEMA.** On thermal coefficients of aneroids of NAUDET.

(Versl. Kon. Akad. November 1896).

35. **Dr. L. H. SIERTSEMA.** On the effect of pressure on the natural rotation of the plane of polarisation in solutions of cane-sugar.

(Versl. Kon. Akad. Januari 1897).

36. **Dr. P. ZEEMAN.** Appendix to N°. 33.

(Phil. Mag. March 1897).
